rom the Alba, viening Journal (Seward's organ),
Nov. 9.)
Though we have returns and reports, complete or parl, from every county in the State, they do not enable
to form decided opinions as to the general results of
e election. The content for Governor is between Seyour and Clark, with the chances about equal. The nour and Clark, with the chances about equal. The fromson vote, to a large extent, went over to swell that if the silver grays and Krow Nothings, for Uliman; but with all these auxiliary aids, we are most happy to be assured that the high office of Governor has not "turned p" in favor of that political adventurer. The Empire late is spared that infliction.

We are permitted, therefore, if not to express the pinion, at least to cherish the hope, that the whig State cicket is elected. Should this expectation, amid the while hements combined to work its overthrow, be realized, he triumph will be one of equal surprise and gratification.

THE RESULT OF THE ELECTION.

on.

In view of the vexed and bewildering questions that stered into the contest, confounding parties and placing antidates in false positions, with the strongest political uty wholly disregarded by Know Nothings and silver caps, serious danger to the whig party was apprehended. Whether these "malign influences" have or have of prevailed, is not yet known.

THE ULLMAN COMBINATION.

The Know Nothing element seems to have absorbed almost entiredly the Cooley or hard strength of last fall. Ihis division of the Ullman army was undoubtedly marchalled in the late contest by Daniel S. Dickinson, of Broome, whose town—Binghamton—gave Bronson only forty-one, while it swelled the Ullman vote to four handred and seventy-nine. There were some hards, however, who could not be led off in that direction. We might ame several of this city and county who supported the Cooley ticket last year, but fought resolutely at this election for Seymour and the democratic ticket. This or-anization having been abandonedby the mass of its professed supporters, we have no reason to doubt that most of those who stood by Bronson to the last will ake the earliest opportunity to reinftate themselves in the democratic party. Another material portion of the Ullman combination was made up of silver greys, who will now endeavor to make the Know Nothing order the ground-work of their proposed new national party. How they will succeed in this of ourse remains to be seen. The Know Nothings, seconding, to their census, numbered only about 16,000 electors—which (the aggregate Ullman vote being the least twice that number) shows that their outside upport at this election will, in all probability, be cumbersome to them hereafter, and tend to hasten the dissolution of their organization. The novelty of the thing invitig once in a measure worn off, and distraction taken the place of concert and harmony, the only question in "gard to the coalition is, how long will it be before it nuts go down with a crash? We await with a feeling of uriosity Messrs. Weed and Seward's opinion on this joint.

It seems that a party of young and boys, in revenge for the death of Harrison ed during the election, proceeded to North Seventh set, and made a demonstration on houses inhabited Trish, but after a good deal of skirmishing, and seve-l shots had been fired, drew off and proceeded to St. aul's church, (Catholic,) in Second street, which the stacked, and into which they forced an entrance.

Exciting Scene at the Baltimore Court House—
A Man Shot by a Woman.

[From the Baltimore American, Oct. 8.]

For several days past there has been quite an excitement about the Criminal Court room, in consequence of the progress of the trial of a man named Adolph Fischer, for an alleged outrage upon a female residing on Fell's Point. The testimony was generally of a character unfit for publication, but it was deemed insufficient by the jury to warrant a full verdict of condemnation. The female attended the trial, and carefully watched its progress.

Meiggs, recently elected Comptroller, and a large amount of treasure, set sail "for ports in the Pacific." The greatest excitement prevailed for two or three days, and for some time no idea could be formed as to the extent of the forgeries. The matter has been pretty extensively investigated since, and the following is probably not very far from the true amount of the loss sustained by Meiggs' operations:—

The warrants were generally made out in favor of Jesse L. Wetmore, and in sums of from \$200 to \$1,000. At
